

Cautionary Statement with Respect to Forward-Looking Statements

Statements made in Annual Report 2009 with respect to our current plans, estimates, strategies and beliefs, and other statements that are not historical facts are forward-looking statements about our future performance. These statements are based on management's assumptions and beliefs in light of the information currently available to it. We caution that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore you should not place undue reliance on them. It is not our obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. We disclaim any such obligation. Risks and uncertainties that might affect us include, but are not limited to: (i) general economic conditions in our markets, particularly levels of consumer spending; (ii) exchange rates, particularly between the Japanese yen and the U.S. dollar, the euro, and other currencies in which we make significant sales or in which our assets and liabilities are denominated; (iii) our ability to continuously design and develop highly rated products and services in extremely competitive markets, which are characterized by continual product launches, rapid technological development, intense price-based competition, subjective and changing consumer preferences and other factors; (iv) our ability to successfully implement our business strategies; (v) our ability to compete, as well as develop and implement successful sales and distribution strategies, in light of technological developments in and affecting our businesses; (vi) our continued ability to devote sufficient resources to research and development, and capital expenditure; (vii) our ability to continuously enhance our brand image; (viii) the success of our joint ventures and alliances; (ix) the success of our business restructuring plans; and (x) the outcome of contingencies.
